Desk 5000	V5	ID5000-SKY-A5600
Move 2500	V5	IM2500-SKY-A5600
Desk 3200	V5	ID3200-SKY-A5600
Lane 3000	V5	IL3000-SKY-A5600

🚫 **Important** V4 terminals are ***not supported*** by this release.

If you attempt to upgrade a V4 terminal to this release, the terminal will not logon and will display the following error message: **PHONE HELP DESK**

Please ensure you only upgrade supported terminals. For assistance, contact Technical Support

---

🛠️ **Enhancements & Fixes**

✅ **MAN PAN Fix**

- Resolved an issue where surcharging was not available when processing MAN PAN transactions.

✅ **Terminal Support for Remote Nitro Disable**

- We have introduced the ability to remotely deactivate Nitro functionality on terminals. This enhancement streamlines device management and improves operational flexibility. Refer to our Remote Nitro Deactivation Guide for more information.

✅ Web Applications

- Issues with Web Application on the PCI V6 terminals have been addressed

✅ Slow Printing Issue

- Addressed and resolved an issue where terminals experienced slow printing.
