Subject: New Function Code to Enable and Disable DCC Functionality

Hardware: All

Software: 2015 - 109

Effective Date: Immediately

Description:

We have released a new version of DCC (v109) to address the terminal becoming unresponsive for a time period of approx 1 minute.

Impact:

DCC will now be disabled by default and the new function code (**3025707)** will be required to enable it. Please note: Terminals that are currently using DCC will continue to offer DCC after updating to the new version.

Resolution:

Enable Pure Commerce CSE Application

Press **FUNC**

Enter **3025707** and press **ENTER**

ENABLE DCC will be displayed. Press **ENTER**

DCC application has now been activated.

Disable Pure Commerce CSE Application

Press **FUNC**

Enter **3025707** and press **ENTER**

DISABLE DCC will be displayed. Press **ENTER**

DCC application has now been deactivated
